

Selecting Your New Certificate

If you have recently renewed your certificate then you need to change the certificate that is being used. This is a simple task – however you will need to set the appearance of your signature. To update your certificate you will need to do the following

- Create a new PDF in Bluebeam Revu
- Click Tools
- Signature
- Digital IDs

- Find your certificate (Firstname Lastname)
- Select the certificate that has not expired (Organization Name should be IdenTrust and the expiration date)
- □ Click on Manage Appearances

Bluebeam Revu

• If you do not have a VDOT appearance then click on the green plus button to create one

| Teres | sa L Cantrell Appearances | × |
|-----------|---------------------------|----|
| + | Appearances VDOT | |
| \$ | | |
| X | | |
| | | |
| | | |
| | | |
| | | ОК |

• Set the appearance as shown below

| Signature Appearance | ₿ × |
|--|--------------------|
| Title: VDOT | |
| Graphic | |
| None | |
| O Name | |
| () File | |
| Position: 🖲 Left 🕜 F | light 🔘 Background |
| Text | |
| ✓ Name Distinguished Name Location ✓ Reason Contact Info ✓ Date | Alignment: |
| | Labels |
| Font Size: 9 | V Auto |
| Preview | |
| <na <rea <da< td=""><td>son></td></da<></rea </na | son> |
| | |
| | OK Cancel |

• Once you have completed the above steps you will need to sign documents and select the same certificate from the dropdown that was previously located.
