## **SECTION 1C.1 - CONSTRUCTION AREAS**

### **DISTRICTS AND RESIDENCIES**

There are two or more residency offices in the nine construction districts in Virginia. District \*Engineer/Administrators and Residency Engineer/Administrators are charged with the administration and supervision of all highway activities within their designated geographical area. [Figure 1C-1](#) shows the statewide construction district locations and their respective district numbers.

### **COUNTIES AND MUNICIPALITIES**

County numbers are listed in [Figure 1C-3](#) along with corresponding residency and district codes for quick location. A tabulation for municipalities ([Table 1C-2](#)) identifies the county, residency, and district for each city or town and separates (for Urban Project Funding) the cities and towns into three population breakdowns - over 5000, 3500-5000, and less than 3500. By matching corresponding numbers to the "District and Residency" tabulation, ([Table 1C-3](#)), all construction areas in Virginia can be easily identified.

---
